Wing F. Wong

FSA, MAAA

Principal, Consulting Actuary

CURRENT RESPONSIBILITY

Based in Taipei, Wing leads Milliman's local offices in Taipei and Beijing. He has been a Milliman consultant for more than 15 years, first in the United States and then in Asia.

EXPERIENCE

Wing has led a wide range of projects, including actuarial due diligence, appraisal value, embedded value, enterprise risk management, asset-liability management, product/channel strategies, product development, and financial reporting.

He has managed M&A due diligence work and embedded value work in a number of Asian markets, such as Malaysia, Thailand, Philippines, Taiwan, and China,

His recent product development experience includes pricing one of the first universal life with secondary guarantee products in Hong Kong. Wing also leads teams developing several of the first variable annuities with guaranteed minimum benefit products in the Taiwan market.

He led teams in developing asset-liability management models and analysis for clients looking to better understand and manage the business, and to study proper asset allocation to achieve balance among return, risks, and capital.

In recent years, Wing has focused on developing client applications of Milliman's unique complexity science-based approach to enterprise risk management. His work involved running risk workshops utilizing cognitive mapping techniques, developing risk registers, and applying innovative approaches to sales risks and operational risks, as well as data-driven approaches to emerging risks.

Before joining Milliman, Wing was a staff economist responsible for electricity demand forecasting models in a civil engineering consulting firm.
